Re: Provident Life and Accident Insurance Company

Individual Long Term Care

NAIC #565-68195 FEIN #62-0331200 Policy Forms: RLTC03 and LTC03

The purpose of this letter and attached actuarial memorandum is to request a rate increase for the inforce business sold under the Unum group long-term care policy forms referenced in the subject line above. These policy forms are no longer marketed in any state. A rate increase of 10% was approved in the District of Columbia in 2013 under SERFF Tracking Number: Unum-128352718.

A rate increase of 86.1%, to be implemented over 3 years, was approved in our state of domicile, by the Tennessee Department of Commerce and Insurance on September 10, 2012.

At this time, Unum is requesting the approval of a 10% premium rate increase on the base rates associated with the policy forms listed above. We intend to begin using these new premium rates in July 2014, or upon approval by your Department, whichever occurs later. Any approved premium rate increase will be effective upon the policyholder's next anniversary, subject to at least a 60 day notification to the insured or longer if required by your state.

We will offer all insureds affected by the premium rate increase the option of reducing their coverage to mitigate the impact of the rate increase. Insureds will have the option to reduce their monthly benefit, increase their elimination period, decrease their benefit period, elect to continue the policy under contingent non-forfeiture or make other benefit changes that will best meet their needs.

Each insured will be given the option to exchange their current policy for a non-forfeiture benefit (paid-up policy) upon lapse which is equal to 100% of the sum of all premiums paid. This option will be available to all insureds (both pre and post rate stability certificate holders) regardless of the level of the rate increase amount or the insured's issue age.

Insureds who select this option will immediately be entitled to the non-forfeiture benefit and will not be obligated to pay the higher premiums associated with the rate increase. Insureds who choose this option will receive a copy of Amendment CNF12I. Form # CNF12I was approved for use under SERFF Tracking Number, UNUM-128352958.

The following items are included in this submission:

- Cover letter
- Overview of rate increase filing

Company Tracking #: 2012 ILTC RATE INITIATIVE -PHASE II

State: District of Columbia Filing Company: Provident Life and Accident Insurance Company

Actuarial Memorandum Individual Long Term Care January, 2014 District of Columbia

RLTC03	<u>Description</u> Long Term Care Facility Only Policy (Reimbursement)
RLTCP03	Long Term Care with Professional Home and Community Care Benefit (Reimbursement)
LTC03	Long Term Care Facility Only Policy (Indemnity)
LTCP03	Long Term Care with Professional Home and Community Care Benefit (Indemnity)
LTCT03	Long Term Care with Total Choice Home Care Benefit (Indemnity)

These policy forms were first issued in your state in 2003 and were actively marketed through 2009. Although no longer actively marketed, some policies are still issued through conversion obligations under our individual disability income policies.

These policy forms were originally priced while state by state implementation of rate stability, under the NAIC model regulation, was underway therefore the premium rates were developed in accordance with the NAIC model regulation.

1. Scope & Purpose

This actuarial memorandum has been prepared for the purpose of demonstrating that the loss ratio requirements have been met in your state for a requested premium rate increase and is not intended to be used for other purposes.

2. Benefit Description

Long Term Care Facility Benefit: Pays 100% of actual charges up to the daily maximum benefit for covered services provided in a nursing facility, assisted living facility, hospice facility, rehabilitation facility, Alzheimer's facility or residential care facility. For the indemnity benefit plan, 100% of the daily maximum benefit is paid for each day of covered services.

Home and Community Care Benefits: Pays 100% of actual charge up to the home and community care monthly benefit maximum for covered services provided by a licensed professional. For the indemnity benefit plan, 100% of the daily maximum benefit is paid for each day of covered services. For the Total Choice Home Care Benefit, a family

member or an informal caregiver may provide services. Monthly Home and Community Care Benefit percentage options are equal to 50%, 75% or 100% of the Long Term Care Facility Daily Benefit multiplied by the number of days in the month.

Additional Care Benefit: Includes special services, equipment or Caregiver Training designed to assist the insured while living at home or in other residential housing. Lifetime maximum benefit is \$5,000.

<u>Bed Reservation Benefit</u>: If an insured is receiving an LTC Facility daily benefit and their stay in the LTC Facility is interrupted due to relocation to an acute care facility or a temporary absence and a charge is made to reserve the insureds LTC Facility accommodations, the policy will pay an LTC Facility daily benefit as follows:

- up to 90 days per calendar year if absence is due to a stay in an acute care facility;
- up to 30 days per calendar year for a temporary absence not related to a stay in an acute care facility.

<u>Respite Care Benefit</u>: Provides temporary relief to primary informal caregiver from his or her caregiving duties. The policy provides respite care benefits for up to 21 days each calendar year.

<u>Waiver of Premium</u>: Premiums are waived after the insured satisfies the elimination period and is receiving benefits. Premium payments are not waived if the insured is only receiving Respite Care Benefits or Additional Care Benefits.

<u>International Coverage</u>: Provides coverage for Long Term Care services outside the United States. This Benefit is only available with the Total Choice Home Care Benefit. Benefits are paid at 75% of the Total Choice Home Care Daily Benefit.

Optional Riders

<u>Accelerated Payment Option</u>: Insured can select from accelerated premium payment options of a single premium, 5-year, 10-year, and to age 65.

<u>Non-forfeiture</u>: Insured can select a shortened benefit period option or a cash surrender option. Both options require 3 years of coverage.

<u>Inflation Protection:</u> Insured can select simple or compound inflation protection. A CPI inflation option is available with indemnity coverage.

<u>Restoration of Benefits</u>: Restores daily benefit and lifetime maximum after an insured recovers for at least 180 consecutive days.

Return of Premium at Death: Upon death of the insured, all premiums paid less any claims paid are refunded to the insured's estate.

<u>Survivorship Waiver of Premium</u>: Premium is waived if both policies have been inforce at least 10 years and spouse dies.

3. Renewability

This is a guaranteed renewable individual long term care policy and is intended to be a Tax Qualified Long Term Care Insurance contract as defined by the internal revenue code.

4. Applicability

This filing is applicable to inforce and new policies. These policy forms are no longer being sold in the market. The premium changes will apply to the base rates of the policy. New policies are issued only as a result of optional conversion from an existing individual disability income policy.

5. Actuarial Assumptions

As part of our inforce management of the Company's LTC business, experience is monitored regularly and studies continued to be expanded and enhanced. The A/E's provided below are based upon studies completed in 2011-2012. In 2013, we have started an extensive review of our exiting tools and processes to enhance our experience monitoring capabilities. We are also expanding our external analysis, where company data may not be fully credible for segment analysis. This analysis is expected to be completed by the end of 2014.

The ILTC LTC policy forms, subject to this rate increase request, were priced in 2002, at a time when insured LTC experience was very limited. At the time of pricing, company experience was performing at expected or more favorable than expected.

The sections below illustrate how our projection assumptions compare to actual experience for key risk assumptions.

Morbidity

The original pricing morbidity assumptions were based on the 1985 National Nursing Home Survey, the 1982 National Long Term Care Survey and its follow-up surveys, company experience, and information provided by actuarial consultants. Incidence and claim termination experience are described below.

a. Incidence

Based upon experience from 2000 through 2011, the overall incidence actual-to-expected ratio based upon original pricing was 84% as noted below:

Years	A/E	-	Age	A/E
2000-2002	89%	_	<=65	66%
2003-2005	78%		66-75	76%
2006-2008	83%		76-85	88%
2009-2011	87%		86+	100%
Total	84%	_	Total	84%

The incidence assumptions supporting this filing have been modified to reflect the favorable historical experience noted above. We also have not fully reflected the recent elevated experience that occurred with the economic downturn at this time as we expect that incidence rates may return to normal historical trends.

Years	Exposure	Actual	Expected	A/E
 2000-2002	322,030	1,397	1,290	108%
2003-2005	538,640	2,093	2,207	95%
2006-2008	560,105	3,191	3,153	101%
2009-2011	515,540	4,251	3,905	109%
Total	1,936,315	10,932	10,555	104%

b. Claim Terminations

Based upon original pricing assumptions the individual LTC A/E claim termination rate is 84%.

The "expected" claim termination assumption supporting this projection is based upon total company (individual and group LTC) experience. The table below provides a comparison of LTC experience vs. the expected claims terminations derived from total company experience. We have increased the A/E from 84% to 93% with our change to the "expected" assumption used to support this projection but we continue to monitor our emerging experience and external data sources for further modifications.

Age	Actual	Expected	A/E
<55	238	220	108%
55-64	664	588	113%
65-74	1,448	1,502	96%
75-84	2,462	2,742	90%
85+	1,173	1,373	85%
Total	5,985	6,424	93%

Mortality

Original pricing mortality assumptions was based on the 1994 Group Annuity Mortality Basic Table with selection factors applied to reflect underwriting. The actual-to-expected mortality was 61% based upon original pricing assumptions and experience through June 2012.

The "expected: mortality assumptions, supporting this filing, have been modified to reflect total company (individual and group LTC) experience and produce an aggregate actual-to-expected ratio of 100%. Recent experience is being further analyzed for under reporting of deaths and is impacted by reporting lag.

Grand	1,403,13			
Total	1	1.4%	69%	100%

b. MultiLife Lapses

Original pricing assumptions had a higher expected lapse rate than individual sales due to the product being offered in the employer setting with potential employer-funding.

Expenses

Expenses have not been explicitly projected.

6. Trend Assumptions

As this is not medical insurance, we have not included any explicit medical cost trends in the projections. Nor have any improvements in morbidity or mortality assumptions been used.

7. Marketing Method

This product was marketed primarily through our agency, broker and national marketing organization distribution channels. This product is no longer marketed.

8. Underwriting Description

Both long form underwriting and guaranteed standard issue were performed with this product. Long form underwriting consists of a long form application, and optional medical information, telephonic assessments and face to face interviews. Guaranteed standard issue uses a short form application and is available in a multi-life offering.

9. Premium Classes

The base policy premium rates vary by issue age, benefit period, inflation option, and Home Care benefit percentage. Premium factors related to the insured elected plan features or underwriting class remain unchanged from the initial rate filing.

10. Premium Modes

Available premium modes include annual, semi-annual, quarterly, monthly and monthly electronic funds transfer. Factor adjustments for modes other than annual are unchanged from the initial rate filing.

11. Issue Ages

The issue ages are age 18 to 100.

12. Area Factors

Area factors are not used for this product.

13. Average Annual Premium

The table below summarizes the average annual premium per policy, before and after the requested rate increase, both nationwide and in your state:

	Nation	nwide	District of	Columbia
	before the rate increase	after the rate increase	before the rate increase	after the rate increase
Total	1,628	1,791	2,132	2,345

14. Number of Policyholders

The table below summarizes, as of 9/30/2013, the number of policies inforce and the 2013 annualized premium that will be affected by this rate increase in your state, split by policies issued before and after the adoption of rate stability regulation in your state. All policies were issued after the rate stabilization became effective in your state.

	Number of Policies	Annualized Premium
District of Columbia	195	377,861
Nationwide	23,366	34,582,247

15. Distribution of Business

The table below summarizes, as of 9/30/2013, the distribution of the 2013 annualized premium by several characteristics. This information is based on national business.

Issue Age	%
<40	5%
40-44	6%

16. History of Previous Rate Revisions

A premium increase of 10% was approved in 2013 for this policy form. Please see Exhibit 3 for the filing status of rate increases in other states.

17. Requested Rate Increase

The company is requesting a 10% rate increase for all policies issued in your state, within the scope of this memorandum.

PROVIDENT LIFE AND ACCIDENT INSURANCE COMPANY

18. Reserves

Active life reserves have not been used in this rate increase demonstration. Statutory claim reserves as of 9/30/2013 have been discounted to the date of incurrals of each respective claim and included in the historical incurred claims. Incurred But Not Reported claim reserves as of 9/30/2013 have also been allocated to the expected calendar year of incurrals and included in historical incurred claims and runoff in the projected experience.

19. Past and Future Projected Policy Experience and Demonstration of Satisfaction of Loss Ratio Requirements

Nationwide historical and projected experience for these policy forms with and without the proposed rate increase is provided in Exhibit 1. State specific experience is provided in Exhibit 2.

Historical results reflect earned premium by calendar year with claims captured by incurral year. That is, incurred claims for a calendar represent all payments through September 30, 2013 for a claim incurred in a particular calendar year plus any claim reserve held as of September 30, 2013. Incurred claims also include IBNR held as of September 30, 2013.

Future expected experience is based upon the updated assumptions outlined in Section 5 of this memo plus a 10% provision for moderate adverse experience.

Upon a contingent benefit upon lapse, an active life reserve will be held to support the expected benefits to be paid under the contingent benefit upon lapse. These reserves are not incorporated in the loss ratio demonstration supporting this rate revision.

The discount rate used to accumulate past experience and for discounting future experience is 4.28%, consistent with the average statutory valuation rate for contract reserves on these policy forms.

	Expected Incurred Lifetime Loss Ratios					
	Nationwide					
After Propose						
	Before Rate Increase	Increase				
Historical	9%	9%				
Future	318%	295%				
Lifetime	158%	153%				

Under rate stabilization guidelines, the maximum justifiable rate increase is 303% where

District of Columbia version 1.0

PROVIDENT LIFE AND ACCIDENT INSURANCE COMPANY

the accumulation of past claims plus the discount of future claims is more than the sum of 58% of the accumulated and discounted original premium plus 85% of the accumulated and discounted premium from any rate increase.

The table below summarizes the results of the loss ratio requirements after the proposed rate increases.

(1) Accumulated value of past incurred claims	\$38,492,194
(2) Present value of future incurred claims	\$1,274,164,627
(3) Total incurred claims	\$1,312,656,821
(4) 58% of original premiums plus	\$461,177,685
(5) 85% of rate increase premium	\$55,404,589
(6) Total premiums	\$516,582,274
Since (3) total incurred claims exceed (6) total	Loss Ratio Test
premiums, loss ratio is satisfied	Passed

20. Proposed Effective Date

The rate increase will apply to policies on their policy anniversary date following a 60-day policyholder notification period.

21. Similar Forms

There are no similar forms currently marketed by the company.

22. Actuarial Certification

I am a Fellow of the Society of Actuaries and a Member of the American Academy of Actuaries. I meet the Academy's qualification standards for rendering this opinion and am familiar with the requirements for filing long-term care insurance premiums and filing for increases in long-term care insurance premiums.

To the best of my knowledge, this rate filing is in compliance with the applicable laws and regulations of this state. This memorandum has been prepared in conformity with all applicable Actuarial Standards of Practice including ASOP Number 8.

I certify that renewal premium rate schedules are not greater than new business premium rates schedules except for differences attributable to benefits. Unum is no longer writing any new group long term care employer policies.

I have taken into consideration the policy design, underwriting, and claims adjudication practices.

District of Columbia version 1.0

PROVIDENT LIFE AND ACCIDENT INSURANCE COMPANY

To the best of my knowledge, a cumulative premium rate increase request in excess of 100% is necessary to certify that the premium rate schedule is sufficient to cover anticipated cost under moderately adverse experience, if the underlying assumptions are realized and the premium rates schedules are reasonably expected to be sustainable over the life of the policies with no further premium rate schedule increases anticipated. With this filing, the rate increase request is being limited to 10%, meaning that additional rates increase may be necessary. Emerging experience will continue be monitored to assess future rate increase needs.

Provident Life and Accident Insurance Company (Company) Individual Long Term Care (LTC) Rate Increase Filing District of Columbia

Policy Overview

Policy form: LTC03
Initially priced: 2002

Marketed: 2003 – 2009

Background Information

Prior rate increases: 10%

Policyholders: District of Columbia - 195 Nationally - 23,366

Inforce premium: District of Columbia - \$377,861 Nationally - \$34,582,247

District of Columbia average annual premium per policyholder prior to increase: \$2,132

District of Columbia average annual premium per policyholder after 10% increase: \$2,345 (\$213

additional)

District of Columbia average age of policyholders: 61

Requested Increase:

The Company is requesting a 10% rate increase, which satisfies the loss ratio requirements in your state. A prior increase of 10% was approved in your state in 2013.

The Company's initial request for a one-time 90% rate increase on a nationwide basis began in 2012. To date, 34 states have accepted some level of rate increase with an average increase of 42% in those states. In several states we are implementing an actuarially equivalent rate increase over a 3-year period of 30%/25%/25%. A second rate increase request is being made in 2014 in those states that disapproved the prior filing and in those state that provided a partial approval.

Reasons why rate increase is needed:

Factors driving the Company's need for premium increases are the same as those impacting the LTC industry, with our experience developing unfavorably for almost all key pricing assumptions:

- lapse rates are lower than expected (e.g. less than 1%)
- mortality continues to improve (e.g. people living longer)
- claim duration is increasing, which is only partially offset by favorable claim incidence experience thus far; and
- a persistent low interest rate environment.

Projected Lifetime Loss Ratios

	Nationwide	District of
		Columbia
Current Assumptions – pre rate increase	158%	198%
Current Assumptions – post rate increase	153%	190%

Insured Options:

In order to minimize the financial impact of the approved premium rate increase, our Company will provide each policyholder with the option of making policy changes to offset some or all of the premium increase. Policy changes options available will be determined by the specific features available pursuant to each customer's policy and permissible by the laws of the State. Typical options available to our customers include: 1) reducing monthly benefit amount; 2) reducing the benefit period available (e.g. from lifetime to a fixed number of years); 3) extending the elimination period; 4) reducing the scope of coverage (e.g. removing the home care benefit); and 5) contingent non-forfeiture (e.g. eliminate the need for future premium payments, while providing a residual level of benefits equal to the premiums that have been paid to date).

Examples of coverage decreases and the impact of the rate increase for a person with coverage issued at age 50 include:

- a. Benefit amount reductions, such as, \$200 of daily benefit to \$100 of daily benefit which will reduce premium by 50%
- b. Reducing the benefit period from lifetime to a 3-year benefit period will reduce premiums by 40%
- c. Increasing the elimination period, such as, from 30 days to 180 days will reduce premium by 25%
- d. Reducing the inflation coverage from 5% compound to 5% simple will reduce premiums by 33%
- e. Reducing the profession home care coverage from 100% to 50% will reduce premiums by 39%
- f. Reducing 50% total home care coverage to 50% professional home care coverage will reduce premiums by 62%

The value associated with any coverage reductions will depend on specific coverage and the age that coverage was purchased. If insureds are interested in any of these options, a Unum representative can provide the details specific to each insured's situation.

Additionally, claimants who are currently on waiver of premium due to their claim status will not experience an increase until their claim ends and premium payments resume.

Market Exit: Unum exited the individual long term care market in 2009. New policies are added through conversion obligations from the Company's individual disability contracts.

Future Rate Increase Filings: If the full amount requested is approved, no additional rate increases are anticipated in the immediate future, if experience emerges as expected. However, if an amount less than the full increase is approved, the Company anticipates that additional rate increase filings will be necessary in the near future. The exact timing of when an additional filing will be made and the amount that will be requested will be determined by the specific facts of each policy series, the Company's experience and applicable laws and regulations.

Provident Life and Accident Insurance Company Individual Long Term Care Frequently Asked Questions for Policyholders

Q. Why is Unum increasing rates on these policies?

A: The premium increases we are requesting are due to a number of factors that impact the pricing for long term care coverage, including persistency, mortality and morbidity. The LTC industry is still relatively young and claims experience trends are emerging differently than originally priced. As more customers recognize the value of LTC coverage, they are retaining this important insurance coverage at higher rates than anticipated, resulting in more claims as insureds age. This adjustment will result in your coverage's price being more closely aligned with current products being sold in the market today.

Q. When will my premiums increase?

A: Premium for your inforce coverage will increase on your policy's anniversary date if it coincides with your billing date. If your policy anniversary date and billing date are not the same, then your new increased premium will become effective when the next premium is due after your policy anniversary.

If your premium is paid through payroll deductions, your employer will be provided the increased amount to update your deductions.

Q. I thought my rates were guaranteed to never increase. Am I being singled out for this rate increase because of my age or health?

A. No. As a guaranteed renewable insurance product, your rates for long term care insurance will never increase based on changes in your age or health, however, the rates for an entire class of customers can increase if necessary to ensure future claims obligations can be met. A change in pricing on a class basis must be actuarially justified.

Q. Where in my policy does it state that rates can change?

A. Unum reserves the right to change premiums as long as the changes apply to all similar policies, which is explained in the Guaranteed Renewable provision outlined in your policy.

Q: Why are my rates increasing based on the state in which my policy was issued and not the state in which I currently reside?

A: The state in which your policy was issued is the governing jurisdiction for your policy's provisions and pricing. As a result, the rate increase is applicable to all similar policies issued in the state, regardless of the policyholder's current state of residence.

Q: Is this rate increase due to the current economic environment?

A: No. This rate increase is solely based on emerging actuarial and claims trends that were not assumed in the original pricing of your coverage.

Provident Life and Accident Insurance Company Individual Long Term Care Frequently Asked Questions for Policyholders

Q: Will my premiums be increased again in the future?

A: It is possible that future increases to your premium may be needed based on a number of developing factors, including overall claims experience. As with this increase, any future increases will be filed with your state insurance department for review. We will certainly notify you in advance of any additional increase.

Q. Why should I keep my long term care insurance coverage?

A: You should carefully evaluate your financial situation prior to making any decision to modify or terminate your coverage. Despite the increase in premium, you should consider the reasons you originally purchased the coverage. Having long term care insurance may be critical in helping preserve your financial future and independence, if you ever require long term care services.

Q: Have other insurance carriers raised their rates on long term care?

A. Yes. The actuarial and claims trends that Unum has experienced have also been experienced by other long term care insurance carriers. As a result, Unum is not the only carrier to implement a pricing increase for long term care policies.

Q: What are the options to reduce my cost?

A. Please refer to the rate change notification letter for a description of the options available to you. We recommend that you consult with your broker or other financial advisor prior to reducing your coverage. If you have additional questions, you can call our Customer Service Center at 1-800-331-1538.

Q: If I want a family member or friend to help me with my coverage and my new rate, what do I need to do?

A: Because we are very careful about protecting the privacy of our policyholders, we would need your authorization to involve a family member or friend in this process. There are two ways to authorize this:

- You can provide us with written authorization that identifies the family member or friend who will be speaking to Unum on your behalf. This authorization will be kept in your file and will remain active through ongoing conversations with Unum. If you have any questions, please call our Customer Service Center at 1-800-331-1538.
- 2. You can provide verbal authorization by phone each time you and your family member or friend need to speak with us. Please note that verbal authorization is only good for that one conversation, so if your family member or friend needs to call us again, you would need to be present for each conversation to provide verbal authorization.

Provident Life and Accident Insurance Company Individual Long Term Care Frequently Asked Questions for Policyholders

- Q: Premiums for my policy are paid by my employer. How does this rate change notification impact me at this time?
- A: If your employer currently pays your premiums for this policy, the enclosed notification is for informational purposes to explain that the rates for your individual policy have increased. This could impact you personally if you elect to continue your coverage after leaving your employment or if your employer alters its agreement relative to premium payments for this coverage.

If your employer pays a portion of the premiums for this policy, the immediate impact of these adjustments to you will depend on your employer's payment policy.

- Q: My premiums are deducted from my paycheck and paid through my employer. How does this rate change impact my payroll deductions?
- A: Your employer has been provided the new premium information and will make the necessary adjustments to your payroll deductions.
- Q: My premium payment is taken directly from my bank account. Will the increase in premium require a new authorization for this payment method?
- A: No. The adjusted premium amount will continue to be automatically deducted from your account.
- Q. I am currently receiving Long Term Care benefits. Do I have to remit the new premium?
- A. The premium increase will not impact your current claim. Your policy will continue to provide you with benefits in accordance with the terms of the coverage you purchased. The policy provision that waives premium will continue to work the same way. If your premiums are currently being waived, the new premium will also be waived until such time as you are no longer eligible for waiver of premium, as stated in your certificate of coverage. You will have to pay the increased premium only after you return to a premium paying status.
- Q: What safety measures are in place should an insurer file for bankruptcy and not be able to meet their claim obligations?
- A: Unum's insurance companies are regulated by each state's insurance laws. As a result, our financial position is evaluated by the state insurance commissioner and is checked regularly with respect to specific capital thresholds required for independent operation. If our capital levels were to fall into a range that would threaten our ability to maintain operations and meet obligations to our customers, the state insurance commissioner would have the ability to step in to protect policyholders. In the event that the company could not be financially repaired, it might be liquidated. At this point, claimants would then be able to receive a lump sum distribution

Provident Life and Accident Insurance Company Individual Long Term Care Frequently Asked Questions for Policyholders

depending on policy type where the lump sum would be paid from the state guarantee fund.

For more information, please see the National Organization of Life & Health Guarantee Associations at www.nolgha.com.

- Q: Who should I contact at Unum if I have additional questions about this rate increase?
- A: If you have additional questions, please contact our Customer Service Center at 1-800-331-1538, Monday through Friday from 8 a.m. to 8 p.m. Eastern time.

RE: Policy Number [Policy Number]

Dear [Insured Name]:

We are committed to ensuring that your long term care insurance benefits are there when you need them most. Therefore, after very careful consideration, we have determined that it is necessary to raise premiums for your policy, which is underwritten by Provident Life and Accident Insurance Compaqny. It is important that our policies remain priced at an appropriate level to meet our future claims obligations. These new premiums will better reflect overall claims rates and other factors related to the pricing of long term care coverage.

We have notified the [State Jurisdiction Name] State Insurance Department of our intent to increase premiums and they have [Final Status] an increase of [Total % Increase]%.

Your new Long Term Care [Mode] premium will be \$[New Modal Premium] and will take effect on the anniversary of your policy, [Anniversary Date].* Please note that if you are currently receiving long term care benefits and you are on waiver of premium, this increase will not be applied until your premium payments resume.

Please be assured that you have not been singled out and this is not a reflection of any previous claims history you may have had, if any. Instead, the premium increase will affect a broad group of policyholders with similar policies.

Your options

Please know that we do not take this action lightly and we recognize that raising premiums may have a significant impact on you. As such, below are three options that you should consider at this time:

- 1. **Take no action:** Keep your exact coverage without any changes and the new premium will take effect on the group plan anniversary dates described above. If we do not hear from you, then we will assume that you have accepted the higher premium amount.
- 2. **Decrease your coverage:** Request a decrease in your coverage to keep your premiums at, or close to, their current level.
- 3. **Elect the Contingent Non-forfeiture Benefit:** You can stop paying premiums and maintain a benefit that is equal to the premiums you have paid on the policy to date. To

preserve this benefit, you must choose the Contingent Non-forfeiture Benefit option within 120 days from the date the pricing increase is effective.* If you would like to stop paying premiums and retain a maximum benefit equal to the premiums you have paid to us, you may do so by completing and returning the enclosed form.

Important: If you do not elect the Contingent Non-forfeiture Benefit option within 120 days from the date the pricing increase is effective and then later terminate your coverage, you will no longer have the right, under this offer, to a benefit equal to the premiums paid. Also, this Contingent Non-Forfeiture Benefit would not supersede any other non-forfeiture provision currently included in your policy that would be of equal or greater value to you.

Your current coverage

To assist you in evaluating your options, we have enclosed your Schedule of Benefits statement. This statement provides a general outline of your inforce coverage and the current cost for this coverage <u>before</u> the increase in pricing.

When you purchased your long term care coverage with us, you made a conscious decision to protect yourself and your family from the increasing costs associated with long term care, which can be significant. Before considering your three options above, please carefully evaluate your situation and consider your reasons for initially purchasing this coverage. The costs associated with nursing home and home care have increased dramatically and according to America's Health Insurance Plans (AHIP), they are expected to quadruple in the next 30 years. Long term care insurance may be critical in helping you manage these costs.

We have enclosed additional information about this pricing increase in the Frequently Asked Questions document. For any additional questions, please contact your insurance broker or financial planner, or call our Customer Service Center at 1-800-331-1538 and a service representative can assist you.

We value your business. Thank you for choosing us and for the trust you place in our company.

Sincerely,

Long Term Care Operations

cc. [Broker Name]

^{*}If your policy anniversary date and billing date are not the same, then your new increased premium will become effective when the next premium is due after your policy anniversary.
